

As the region's largest and most respected self-performing general, mechanical and electrical contractor, Industrial Contractors, Inc. is looking for talented, team-oriented people to fill following role:

Electrical Estimator / Project Manager

We are looking for an experienced, senior level electrical estimator with experience in the heavy industrial and power/energy markets. Individual needs to be a self-starter and be able to estimate and manage a project from inception to final completion. Must be well versed in contracts, take-off, estimating, scheduling, and project management. Position is based out of our main office in Evansville, Indiana, but the individual must be willing to travel. Minimum Requirements:

- 5 years experience relative to the positions listed above in the commercial, industrial, or power industries.
- BA degree from a four-year college and/or related field experience and training required.
- Ability to analyze blueprints, specifications, proposals, and other documentation to prepare time, cost, and labor estimates for projects including conceptual budgets, hard dollar bids and design build work.
- Ability to perform contract administration on awarded projects.
- Must be able to work effectively within a matrix organization with many project disciplines.
- While performing the duties of this job, the employee is regularly required to use hands to finger, handle, or feel objects, tools, or controls; reach with hands and arms; and talk or hear. The employee frequently is required to stand, walk, and sit. The employee is occasionally required to climb or balance and stoop, kneel, crouch, or crawl. The employee must occasionally lift and/or move up to 35 pounds. Specific vision abilities required by this job include close vision, distance vision, color vision, peripheral vision, depth perception, and the ability to adjust focus.
- While performing the duties of this job, the employee occasionally works near moving mechanical parts; in high, precarious places; and in outside weather conditions and is occasionally exposed to fumes or airborne particles, toxic or caustic chemicals, and risk of electrical shock where employee must utilize the proper personal protective equipment and/or other safeguards for their protection. The noise level in the work environment is usually moderate.
