

As the region's largest and most respected self-performing general, mechanical and electrical contractor, Industrial Contractors, Inc. is looking for talented, team-oriented people to fill following role:

Welding Engineer

ICI is currently looking for an experienced, senior level welding engineer with experience in the heavy industrial and power/energy markets. Selected candidate should possess significant experience in hands-on welding, welding technology, welding processes, controls and non-destructive testing. The Welding Process Engineer will also be responsible for ensuring the efficiency and integrity of all code related inspections and maintaining our ASME stamp program. Position is based out of Evansville, Indiana, but the individual must be willing to travel.

Duties and Responsibilities

- Update, maintain, and control weld procedure documentation, certifications, and process specifications.
- Work within Quality Engineering Department to ensure adherence to all ASME, AWS, Jurisdictional and other plant specifications.
- Development of project welding requirements and plans.
- Reports to Quality Control Manager.

Experience, Skills, and Education:

- Bachelors degree in Welding Engineering, Welding Technology or Metallurgy with 5 + years experience or non-degreed but with Significant Experience (20 + years) in Welding Technology.
- Experienced working with ASME Section IX, and the following ASME Sections: I, VIII, B31.1, B31.3 and AWS D1.1
- Experience with various welding processes such as GTAW, GMAW, SMAW and FCAW.
- Experience with nuclear certification programs (N-stamps) would be a plus.
- Knowledge of Statistical Process Control (SPC) required.
- Excellent knowledge of NDT (Non-Destructive Testing) inspection procedures.
- Able to read and analyze mechanical drawings
- Proficient with PC software: Microsoft Office Excel, Word, Outlook, Weld Pro-Write and Auto-Cad.
- Good communication skills – verbal and written.
- U.S. Citizen or Permanent Resident
- Must be able to work effectively within a matrix organization with many project disciplines.
- While performing the duties of this job, the employee is regularly required to use hands to finger, handle, or feel objects, tools, or controls; reach with hands and arms; and talk or hear. The employee frequently is required to stand, walk, and sit. The employee is occasionally required to climb or balance and stoop, kneel, crouch, or crawl. The employee must occasionally lift and/or move up to 50 pounds. Specific vision abilities required by this job include close vision, distance vision, color vision, peripheral vision, depth perception, and the ability to adjust focus.
- While performing the duties of this job, the employee occasionally works near moving mechanical parts; in high, precarious places; and in outside weather conditions and is occasionally exposed to fumes or airborne particles, toxic or caustic chemicals, and risk of electrical shock where employee must utilize the proper personal protective equipment and/or other safeguards for their protection. The noise level in the work environment is usually moderate.
